

DUSTTM

Low M μ TechTM

***Tired of Graphite and Talc?
Switch to the Cleaner. Safer. Soy.[®] Solution.***

1 Lb Bag of DUST \$13.75

14 Lb Pail of DUST \$105.00

Innovation in an unexpected place: the planter box.

CLEANER. SAFER. SOY

CHOOSE SOY-PROTEIN DUST AS A HEALTHIER, SAFER AND CLEANER SEED AND MECHANICAL LUBRICANT AND AS A REPLACEMENT TO GRAPHITE AND TALC.

DUST—SIMPLY CLEANER

DUST IS NATURALLY FORMULATED TO BE LESS “DUSTY”. DUE TO THIS, IT DOESN’T TAKE TO THE AIR AS WILLINGLY AS GRAPHITE/TALC. DUST ALSO DOES NOT LEAVE YOUR HANDS, YOUR FACE, OR YOUR CLOTHING DIRTY. IT WIPES OFF ON CONTACT AND GOES WHERE WANTED: ON THE SEED AND INTO THE FURROW.

DUST IS CREATED ENTIRELY FROM U.S.—SOURCED SOYBEANS

IT TAKES ONE BUSHEL OF SOYBEANS TO MAKE 11 LBS. OF DUST

SINCE IT IS MADE WHOLLY FROM SOY PROTIEN, IT WILL DISAAPEAR WITHING 28 DAYS FROM THE FURROW AND PROVIDED MORE GREEN-UP AND EARLY PLANT VIABILITY.

DUST PROVIDES THE NEEDED LUBRICITY FOR PROPER SEED FLOW.

LOWERS STATIC ELECTRICITY

Choose soy-protein **DUST** as a healthier, safer and cleaner seed lubricant.

GRAPHITE & TALC REPLACEMENT

DUST (left) vs. Graphite/Talc
